

he Trigger goggle was developed and tested in close cooperation with iXS athletes. Its outstanding peripheral vision makes this goggle one of a kind. The Trigger features a simple lens handling, a large variety of lenses and iXS Roll-Off/Tear-Off compatibility.

Wide field of view, unobstructed peripheral vision (178°x78°)

3ply foam for increased comfort

45mm elastic strap

Outriggers allow for perfect fit on any helmet

EN1938:2010

Lenses: Mirrored lens, anti fog, anti scratch, clear single lens

Material composition:

Lens: 100% Polycarbonate / Frame: 47% Thermoplastic Polyurethane, 20% Polyester, 15% Polycarbonate, 6% Polyurethane, 3% Polyamide 6, 2% Elastane, 2% Silicone

NOTE: Trigger can be upgraded with Polarized lens, Tear-Off Kit or Roll-Off System.
